

Portland St. Patrick Chapter

STUDENTS *for* LIFE *of* MICHIGAN

“Since it is so likely that children will meet cruel enemies let them at least have heard of brave knights and heroic courage.” --C.S. Lewis

Millions of children have been killed without penalty since 1973 in abortion shops around the country. Millions more are already being targeted by the abortion industry profiteers. The generation that includes those in the 15-25 year old age group are the next audience.

Portland St. Patrick High School has launched a new chapter of Students for Life. We believe ours is the generation that will finally put an end to this government-approved destruction of human life.

We invite all the high school students from the Portland area to join our new chapter. It will take a dedicated effort from many people to change the current trend of apathy and indifference.

We are sponsoring a bus to Washington D.C. for the March for Life. We will leave early on January 18th and return in the evening on January 20th. We have a limited number of seats still available. If you are interested, please use these links for more information.
